Splash Page

- ❖ From this page the user can 'Start' a new application or 'Load' a saved file.

Main View

- ❖ This is what the application looks like once it has been started and a list has been added.

The screenshot shows a web application window titled "ToDo". On the left, there is a sidebar labeled "List 1" with a list of horizontal bars. The main area is a modal dialog with the heading "Add a new task to your To Do List!!!". Inside the modal, there are three text input fields containing "Grocery Shopping", "Need eggs", and "Tucson, AZ". Below these is a date input field showing "5/6/2021" with a calendar icon. There is a checked checkbox labeled "Important". At the bottom of the modal are "Add" and "Cancel" buttons. The application footer contains a "+" button, a "Save" button, an "Add To Do" button, a "Sort" dropdown menu, a "Show all hidden" button, and a music note icon.

New ToDo

- ❖ A new ToDo object can be added to the list using these prompts.

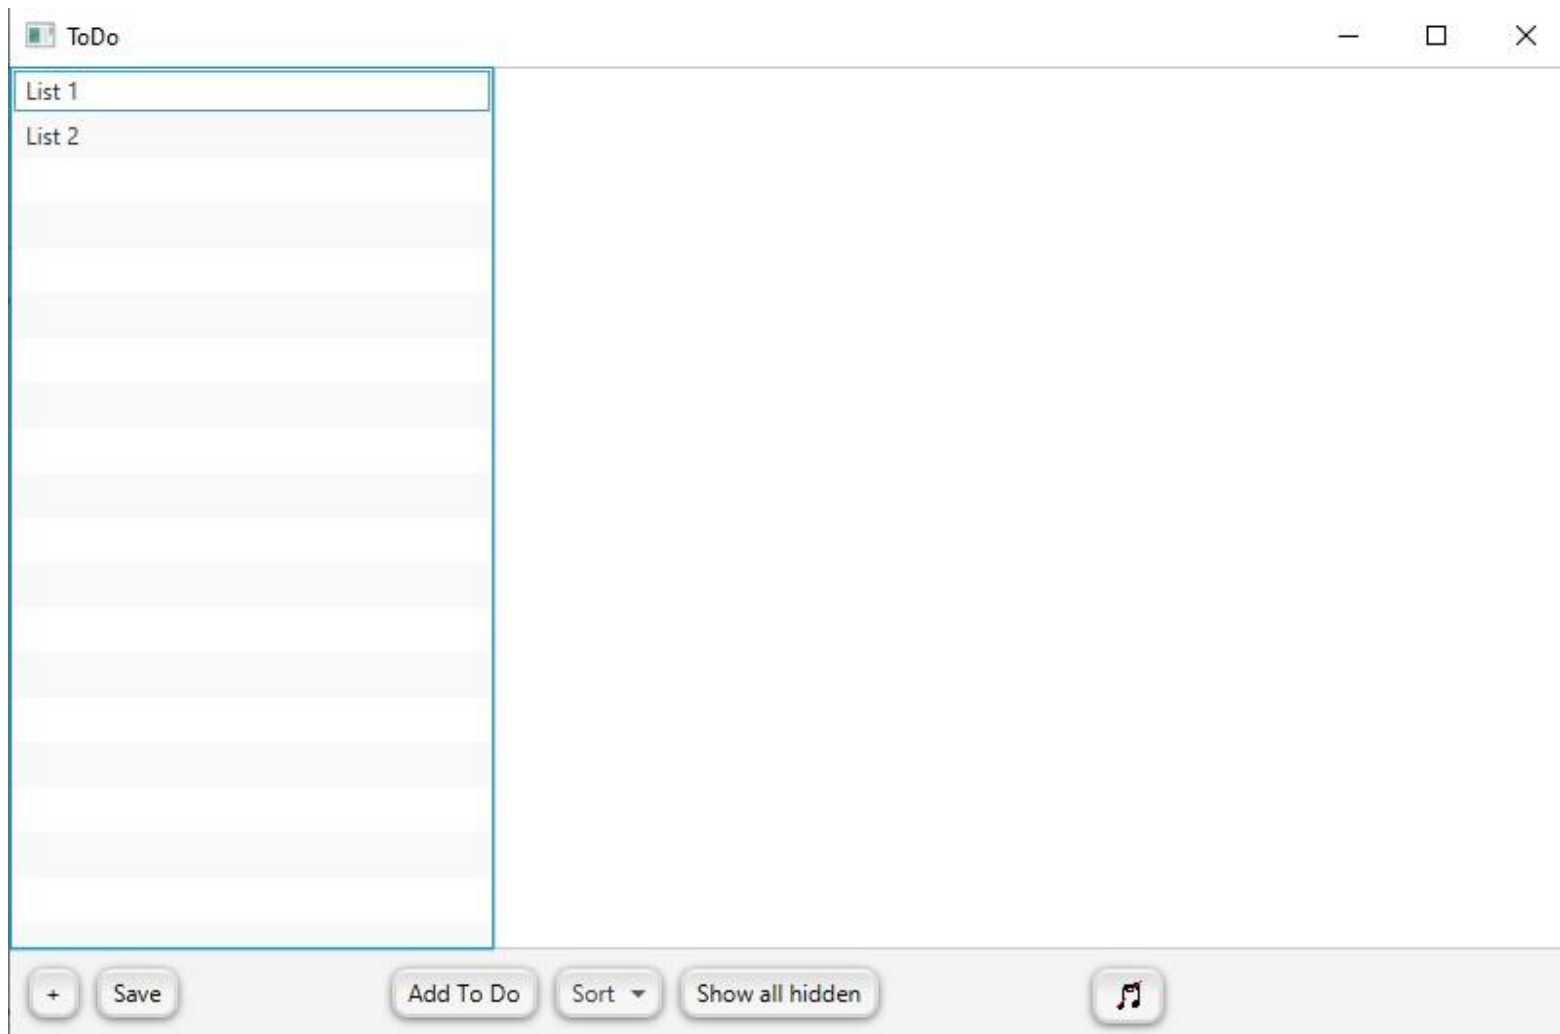

Full View

- ❖ A ToDo can be viewed up close in the third column. This allows the user to take other actions such as deleting, updating and hiding. The '!' means the ToDo is important.

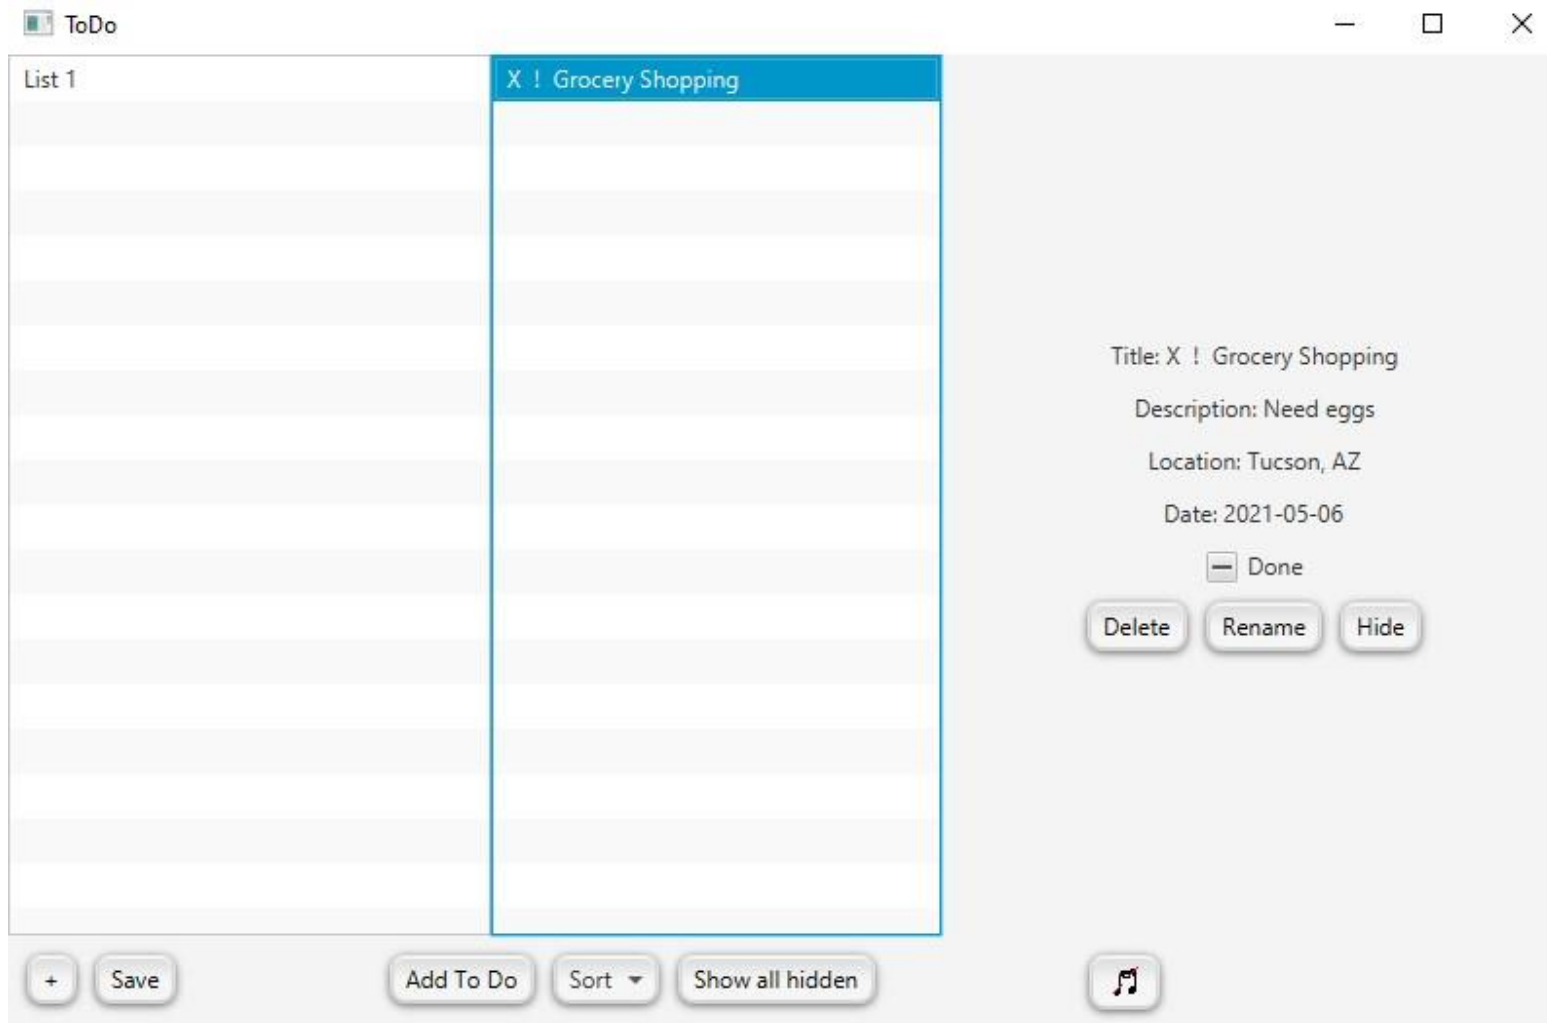

Multiple Lists

- ❖ Another list can be added to the left column using the '+' button and this prompt.

Multiple Lists

- ❖ Multiple lists will appear like this in the left column.

Marking as Done

- ❖ ToDo objects can be marked as done which shows an 'X' in the title.
